**TForce Freight Rules and Charges – TARIFF UPGF 105-L**

**General Rules**

**001 Application of Ocean and Terminal Services**

1. This publication applies for TForce Freight (also identified as Carrier) and explains the rates, rules and charges for offshore services subject to other publications, pricing agreements or individual customer contracts. Exceptions to any of the items in this publication will be noted in customer specific pricing agreements, statements of agreed pricing or contracts that apply for individual customers. TForce Freight, in accordance with its obligations under the Interstate Commerce Commission Termination Act, Section 13710, shall provide to the shipper, on request of the shipper, this publication or any other written or electronic copy of the rate, classification, rules, and practices upon which any rate applicable to its shipment or agreed to between the shipper and Carrier is based.
2. In an effort to provide its customers with quality service and competitive rates, certain commodities are shipped at less than full value. TForce Freight encourages its customers to review this publication as some items may be subject to limitations of liability, released values or other requirements which may relate directly to your shipment. Therefore, all shippers are further encouraged to evaluate their personal or corporate cargo insurance policies so they may ship their goods at the lowest possible rate while still being insured for full value.
3. Unless otherwise provided, when provisions of this tariff are in conflict with those published in individual contracts and / or tariffs, such contracts and / or tariffs, to the extent of their application, will apply.
4. Where a rule published in this tariff covers the same rule published in TForce Freight’s general rules tariff UPGF 102 series or the National Motor Freight Classification, NMF 100 series, such rule published herein, to the extent of its application, will apply in lieu of the rule published in UPGF 102 series or the NMF 100 Series.
5. Except as otherwise provided, or otherwise stated on the bill of lading, and unless the shipper has agreed to accept responsibility, additional charges for ocean and terminal services shall be collected from the party requesting or requiring the service irrespective of whether the line haul charges are prepaid or collect. In the event the party requesting or requiring the service does not pay or is unwilling to pay, TForce Freight reserves the right to assess the charges against the payor of the freight charges.
6. Reissued tariffs, items or parts of items will cancel previously issued tariffs, items or parts of items, or publications referenced thereto. The term “series” implies the most current tariff in effect at time of shipment. Where an item suffixed with an alphabet letter, the letter A, cancels the original item not so suffixed, B cancels A, C cancels B. etc.
7. Unless specifically indicated, the charges shown in this tariff are NOT subject to any discounts or reductions.
8. Where a rule or service is not found in this tariff, refer to UPGF 102 series.
9. Section 2 applies on shipments originating at or destined to points in Puerto Rico or the U.S. Virgin Islands.
10. Section 3 applies on shipments originating at or destined to points in Hawaii or Guam.
11. Section 4 applies on shipments originating at or destined to points in Alaska.

**002 Governing Publications**

**TForce Freight Rules and Charges – TARIFF UPGF 105-L**

**012 Cross Dock Consolidation Service**

All shipments moving from the contiguous United States to offshore locations when dropped off at TForce Freight’s terminal for consolidation shall be subject to a cross dock service charge. Carrier’s charge for the service will be the larger of the minimum, the rate per hundred lbs (cwt) or the rate per cubic foot as follows:

<b>Minimum Charge</b>	<b>Rate per 100 pounds</b>	<b>Rate per cubic foot</b>	<b>Maximum Charge</b>
\$29.00	\$1.12	\$0.12	\$292.00

**020 Redelivery**

Redelivery charges and terms will apply as outlined in Carrier’s UPGF 102 Rules tariff in effect on the ship date, except as noted.

When shipment is subject to an island delivery charge, an island delivery will apply for each delivery attempt in lieu of applicable redelivery charge.

**023 General Discount**

Unless otherwise published, the following discount applies on the movement of shipments within the contiguous 48 United States or Canada:

Discount            73%

**Note A:** Subject to an absolute minimum charge per UPGF 102 Tariff Item 610.

**Note B:** Subject to UPGF 560 / 525 level of rates in effect at the time of the shipment.

**Note C:** Discount applies only when the payor of the freight charge has no published rates with TForce Freight.

**Note D:** The discount will not alternate with the shipper’s outbound collect provisions.

**024 Cubic Foot Calculation**

Multiply the greatest straight-line dimensions of length, width, and height (depth) in inches, including all projections and packaging, of the individual handling unit as tendered to the carrier for shipment. Divide the total by 1,728 cubic inches (one cubic foot) to determine the total cube of the handling unit in cubic feet. Add the cube of each handling unit to determine the total shipping cube.
